## What People Say About American Health Value

Just want to thank you for all your kind and patient help in guiding me through the ins-and-outs of HSAs. You have been unfailingly kind and courteous with my many phone calls. You are the best I've ever encountered in any venue.

**Lisa K.** Marlborough, NH

I have recently contacted American Health Value, as one of our clients have changed over to a high deductible plan and was interested in possibly setting up an account. I had already made calls to a few other companies; however, the service from your representative, Fran, blew the other companies out of the water! I will most definitely be suggesting American Health Value to our client for his account, and will not hesitate to refer to your company in the future.

**Leigh Ann D.** Sylvania, OH

Thank you so very much for your caring, thoughtful assistance with the taxes. What a great human being you are!
