

FRANCHISE FUTURE AT A GLANCE

Who We Are:

Franchise Futures is a licensed franchise advisory firm with one of the nation's most respected franchise recruitment firms. As a trusted advisor helping people find the "best franchise" while avoiding many costly business search mistakes. My services are paid by the franchise community and free to individuals and investors.

I DON'T SELL FRANCHISES, and there is never any pressure to buy (nor should there ever be!) Rather, I bring clarity to a very complex buying process by identifying franchise models that best fit your specific personal and professional objectives such as your skills, interests, geography and investment range.

I represent established, credible and successful franchise models with national presence, generally 20 units or more, consistent ROI, litigation free and excellent owner validation. My relationships with the franchise executives and owners are fluid and subject to change so I am not limited to any particular concept. There's total transparency throughout the entire engagement.

What We Do:

We are the facilitator between the buyer and seller. Our role is to use our industry and market knowledge to introduce parties that are a good fit for each other. We educate the buyers and prepare them to make good franchise buying decisions. We are not selling franchises rather the smart franchise models sell themselves.

The 21st century consumer is looking for convenience when they shop, whether it's buying books over the internet, clothes at a regional mall or a car from a dealer on the miracle mile. The ability to do One Stop Franchise Shopping with a Franchise Advisor fits the American public and truly represents the future of business. Each and every day we are discovering new and exciting franchise opportunities to add to our unique line of listings, always with the idea of meeting our customer's desire for convenience, professionalism and expertise as their long-term goals. Additionally, we can help locate funding options that can save you thousands of dollars. Our financial resources allow us to source funding options for both secured and unsecured loans, generally with very favorable results.

FRANCHISE **F**UTURES

helping you become a franchise owner

www.FranchiseFutures.net

Jerry Pollio is a licensed Senior Franchise Advisor with one of the nations most respected franchise advisory firms in the USA. This strategic partnership brings more than 30 years of franchise expertise, knowledge and resources to our service portfolio. Entrepreneurial, competitive, resourceful and fully committed to your goals and objectives, I am here to help!

What we have accomplished:

- have taken several unemployed, middle management professionals with careers that span more than 20 years into successful franchise ownership. Most have never owned a business before!
- have obtained funding resources which allowed individuals to use their retirement funds to fund their business and draw a salary while paying no penalties, or taxes all very legal!
- have helped women with limited financial resources and tons of professional experience become business owners in established business models. Smart, hard working women who just needed a trusted resource to get them in front of the right people.
- have provided a Father the opportunity to help his son find a franchise business built for the 21st century and beyond, securing his son's future.
- have provided professional guidance and resources to a family that was too close to signing the wrong franchise agreement, today, this family will become a franchise partner in one of the nation's most reliable, secure and lucrative home care franchises.
- Helping you become a successful franchise owner while building equity for your future!
